

Composers named as dedicatees, teachers, or exemplars, other than those named on title pages as composers, or named as composers of individual pieces in anthologies

Spellings are as in original sources. Hyphens (-) and vertical slashes (/) indicate line divisions in the original source and catalogue file, and must be incorporated into a word search. Sources are indicated by composer and RISM number, or date when there is no RISM listing, since a simple word search of many composers' names would yield results not relevant to this list.
