

Imprimatur officials

The listings below place surnames first. When searching, the surname should follow the first and other names. Spellings are as in original sources, including the Latin u & v, i and j, but with source and catalogue file names in uppercase letters reduced below to lowercase. The search engine is indifferent to uppercase or lowercase letters. Hyphens (-) and vertical slashes (/) indicate line divisions in the original source and catalogue file, and must be incorporated into a word search. The indication [sic] is in the catalogue itself and often needs to be included in a word search.
